About
KaribuWebDev Ltd

Karibu WebDev is an agile software development firm based in Meru, Kenya, with strong presence in Nairobi and Mombasa. We specialize in building robust, scalable systems tailored for Africa's digital transformation.

Founded in 2023, our mission is to empower businesses, institutions, and governments with innovative tools that drive growth, streamline operations, and unlock potential. Whether it's a healthcare platform, an eCommerce engine, or an ERP for logistics, Karibu WebDev delivers

WebDev

What we do

Custom Software Development

From scratch to scale — full-stack systems built for your unique operations.

ERPs & Internal Systems

Tailored platforms for HR, inventory, procurement, and more.

Healthcare & Supply Chain Platforms and Accounting

Digitizing clinics, hospitals, and cross-border logistics

eCommerce & AI Integrations

High-conversion, personalized shopping experiences

Mobile Applications

iOS, Android, and PWA apps that work offline and sync intelligently.

DevOps & Infrastructure

CI/CD, containerization, scalable deployments.

UX/UI Design SEO & Branding

Modern, intuitive design systems built to convert.

Technical Consulting

Strategic, unbiased guidance on complex tech decisions. We help you avoid costly mistakes, select the right stack, and design infrastructure that scales with your business.
